Ickes Proposes Government Oil Wells at Harbor

When former owners of Ceritos channel lands deeded their respective holdings to the Federal government they failed to insert a clause retaining oil and gas rights below the surface. This was done before the channel was dredged and when oil and gas was not known to exist. Numerous suits were filed by the former owners, including one instituted by the Union Pacific Railroad Co., in which the government came out on top in the legal controversy. The Union Pacific appealed to a higher court where a final decision is pending.

Meanwhile, Secretary of the Interior Harold L. Ickes proposes to have the government develop oil wells on the land involved and has announced that

Ration Books 1 and 2 Coupons No Longer Valid—One Exception

Housewives were relieved last Monday of carrying ration book No. 2 all coupons in that book having expired last Saturday. The same is true of ration book No. 1—with exception, if coupon 18 has not already been used in the purchase of a pair of shoes. There are sufficient stamps to cover all needs in books Nos. 3 and 4, so with books Nos. 1 and 2 out of use there is no reason for saving their covers.

Garden-fresh lettuce and chard are beyond compare. A hedge of parsley is as useful as it is beautiful.

birds will be received in Washington until Dec. 13 to carry out this program.

Most of the area involved is east of the drawbridge and is therefore in Long Beach.

Christmas Phgs.

Many families have written asking if the American Red Cross will accept orders for Christmas parcels to be delivered to American prisoners of war in Europe. The Red Cross has already shipped on behalf of the Army and Navy and the President's Relief Fund, 10,000 special Christmas parcels so that every American prisoner of war and civilian internee in Europe should receive one. It is not, therefore, necessary for prisoners' relatives to order individual parcels.

BOND BID ACCEPTED

An offer of two \$100 Torrance water department bonds at a saving of \$560 over a period of 11 years was accepted by the city council Tuesday night and the city clerk was authorized to complete the purchase. The bonds mature in 1955.

Northrop Flays Con. Steel Nine By 17-7 Score

By GEORGE PESNER Scoring in every inning, the N.R.C. baseball team collected 20 hits to score a lopsided victory over Consolidated Steel at Torrance ball park Sunday, Nov. 21. After the barrage was over it was noted that the score was 17 to 7 in Northrop's favor.

Ed Logan pitched a beautiful game, allowing but two hits. All 7 runs scored by the Consolidated Steel nine were unearned. John Lan Franco, the converted outfielder, who is now the regular catcher, is showing the boys how it is done both in catching and hitting. John collected three hits for four times at the bat.

"Blooper" Kubiak and P. B. Dexter collected four bingles apiece. Little Bob Etchandy, flashy third baseman for the N.R.C., came up with three of the most sensational plays ever seen on a ball diamond. Next Sunday, Nov. 28, Northrop will play host to the Harvey Machinists. The game will be played at the Torrance ball park and will start at 2:15 p.m. Come out and support your home club.

War Workers Like Torrance Terrace Homes

Keen interest is being shown by the war workers in the Torrance district in the new homes now being completed in Torrance, according to Fred S. Battersfeld, director of sales. Home sales are reported to be exceptionally brisk, the rentals well in advance of completion date of many of the dwellings. Torrance Terrace is located just north of Carson st., between Western and Normandie.

These homes are available to war workers in the Torrance district who meet eligibility requirements of the Torrance War Housing Center. The new homes are constructed under F.H.A. approval and are being sold on small initial payments and modest monthly terms. Prices range from \$4650 to \$5250 for two and three bedrooms, respectively, including the large lot upon which each unit has been built. Improvements include sewers, sidewalks, lawns, shrubs and paved streets. Persons interested in procuring a home in Torrance are urged by Mr. Battersfeld to first apply for a "V" eligibility card at the Torrance War Housing Center, 1119 Sartori ave. The card should then be taken to the Torrance Terrace tract office. Houses are being shown daily and Sunday.

Better Health for Better Living

The last three decades have brought many changes in matters pertaining to health. The normal span of life has been increased materially. Consider diabetes, for example. Diabetes was first recognized about the time of Moses, or 2000 years before the birth of King Tut. Yet, it was not until 1922 that a specific remedy was discovered. Today, through the use of Insulin and a balanced diet, the diabetic can reasonably expect to live about as long as anybody. Your physician will promptly recognize the symptoms of diabetes. He knows all about the treatment. And remember this, all advertised cures for diabetes are fakes. Don't be victimized by the swindlers.
